ABOUT ME

Having graduated with a BA Hons degree in Photography (University for the Creative Arts, Farnham), I pursued a career in graphic design whilst living in London, eventually setting up my own design and branding business in 2011.

I've recently moved back to the north of England and turned my hand again to photography, investing in commercial-grade cameras, lenses and drone equipment.

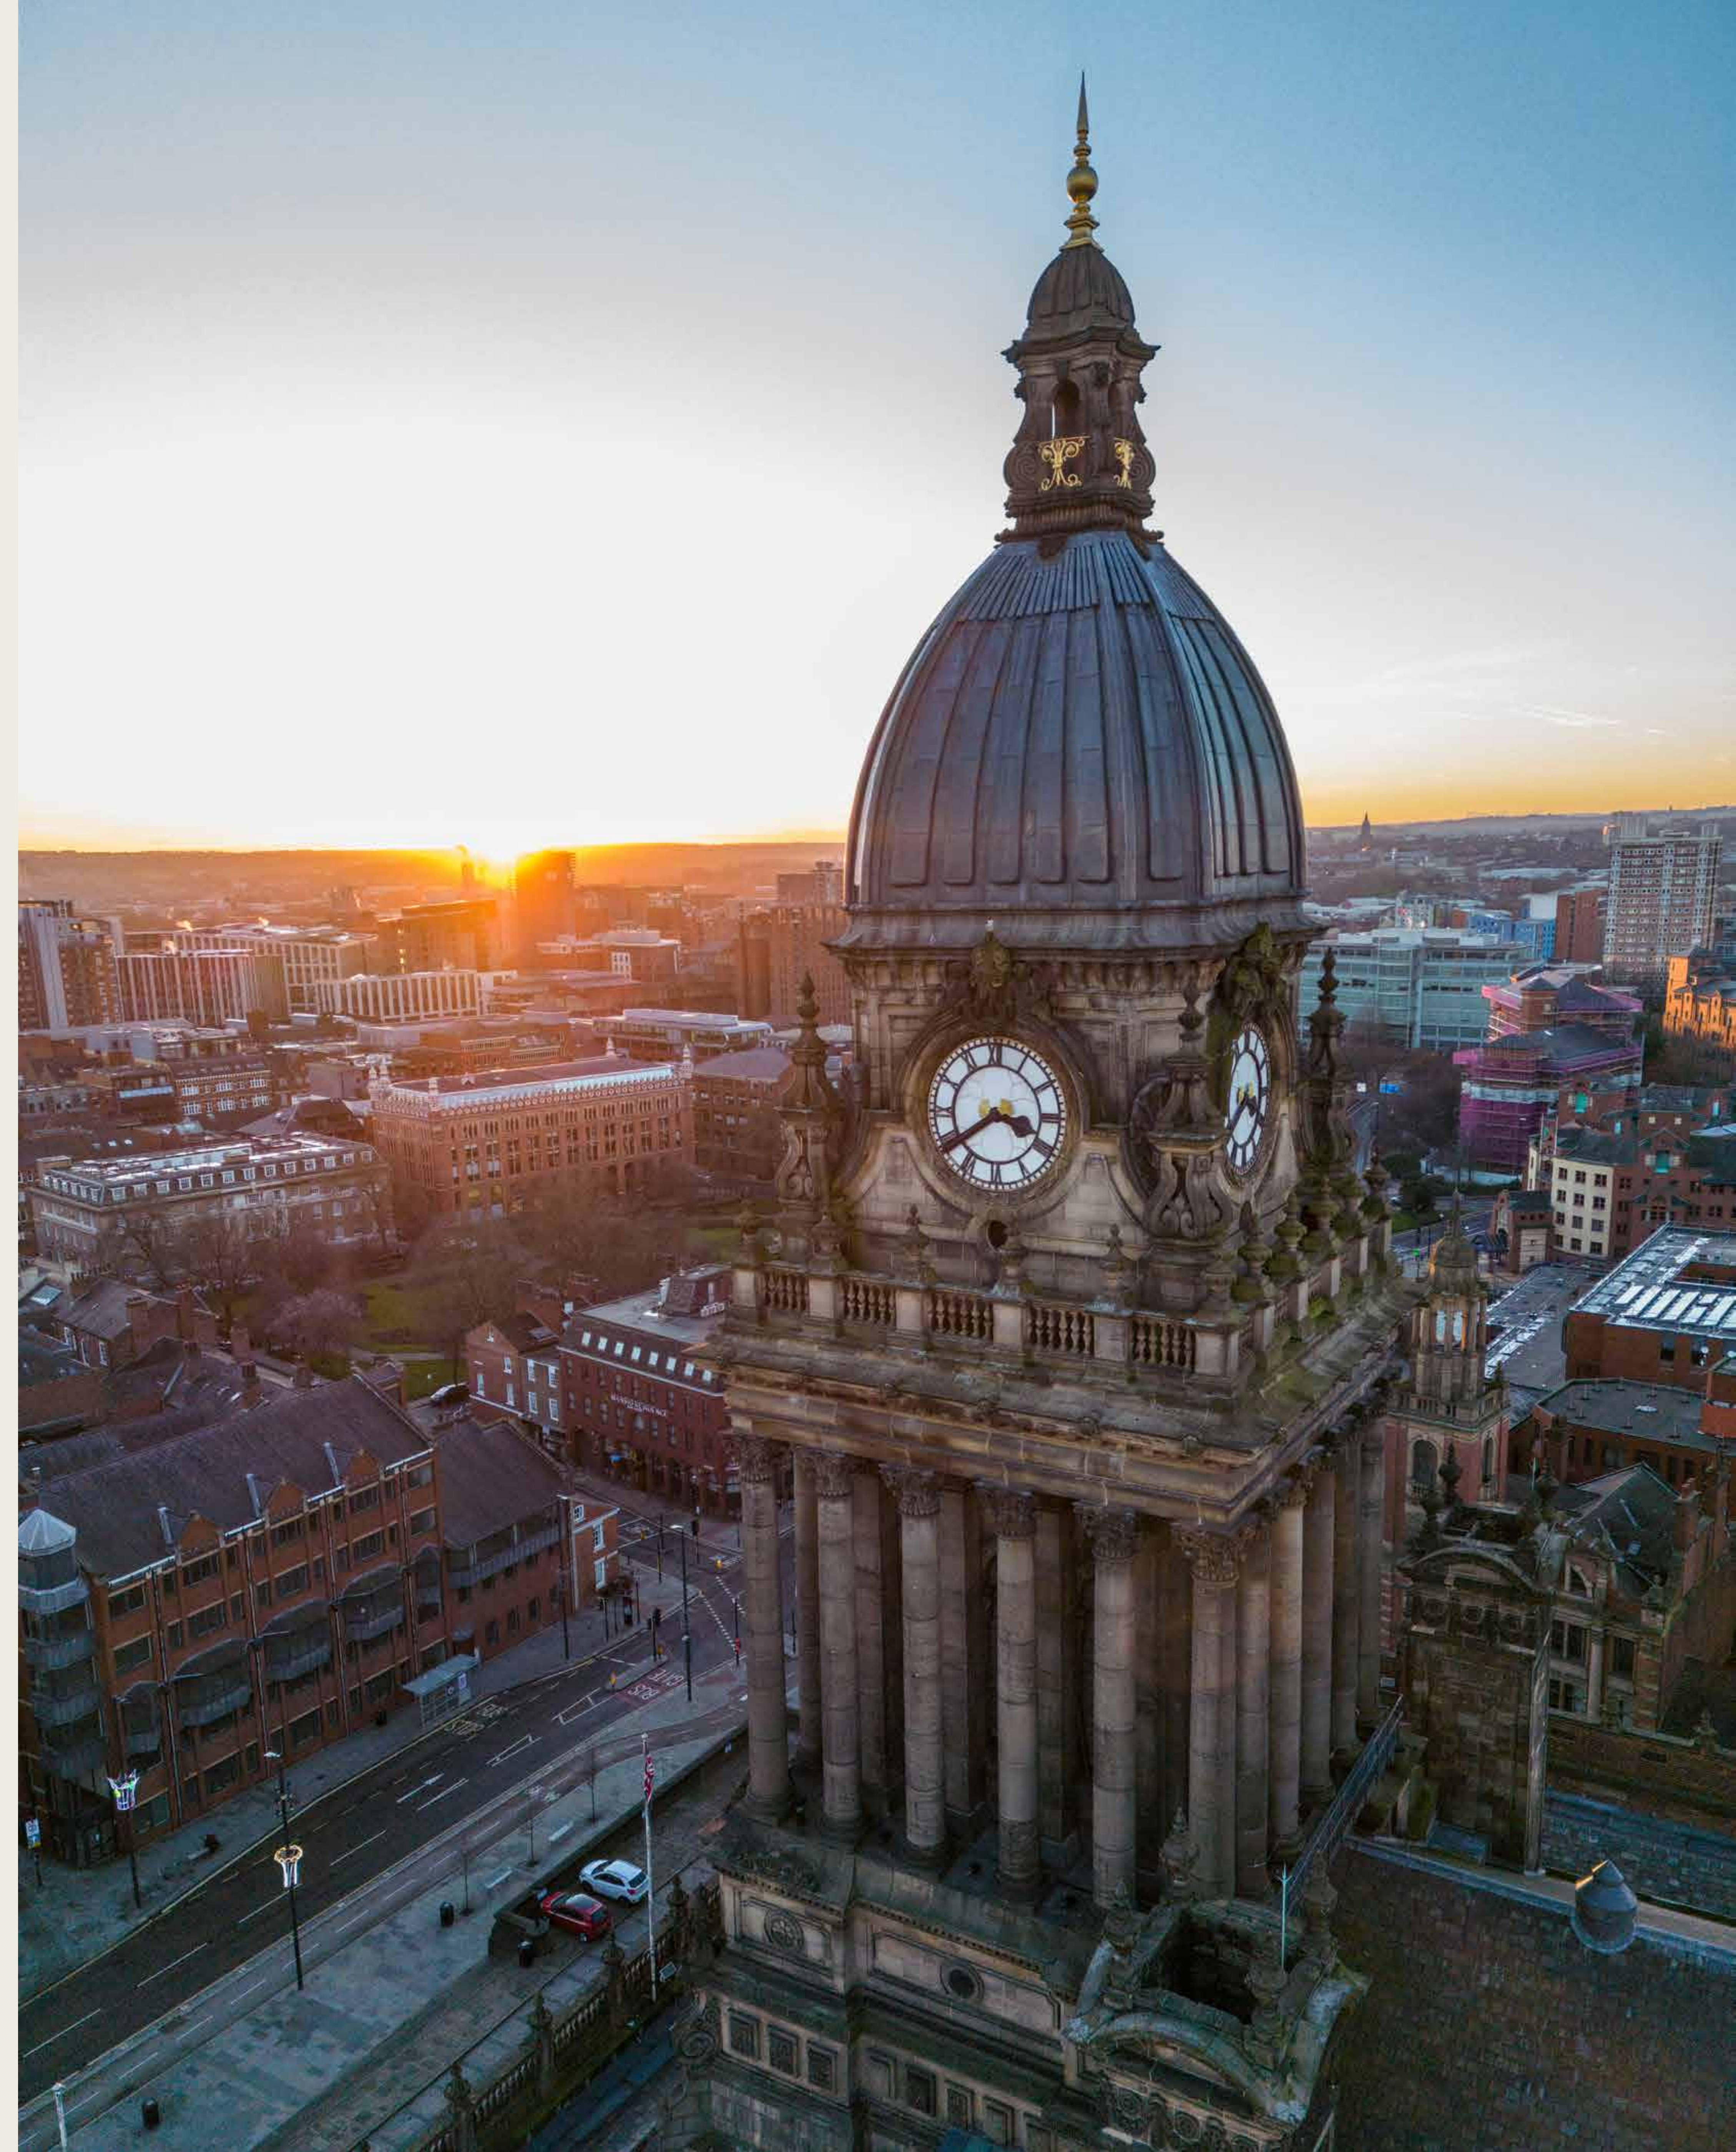

Behind the scenes - photographing Ma6nitude, Middlewich, Cheshire

Client - Tritax Symmetry
Photograph © Alastair Patrick

I provide architectural photography and aerial photography/videography for:

- Architects
- Commercial business
- Interior designers
- Hotels and restaurants
- Corporate architecture
- Corporate interior design
- Construction site photography / aerials
- Commercial interiors (retail, shopping centres, etc)
- Lighting design/installation companies
- Art galleries
- Property management firms
- Property sales and lettings agencies

I'm based in Leeds, West Yorkshire.

I'm available to photograph all kinds of spaces, including but not limited to:

- Offices
- Residential
- Retail
- Industrial
- Distribution & Storage
- Hotels, bars, restaurants
- Universities, colleges, schools, educational
- Art galleries, libraries, museums, exhibition halls

AERIAL PHOTOGRAPHY & VIDEOGRAPHY

I provide aerial photography and video for the following:

- Architect firms
- Property firms
- Building owners
- Construction companies
- Roof inspections

WHY PAUL RIGEL PHOTOGRAPHY?

I've run a boutique graphic design studio for over ten years, and throughout my career as a graphic designer, I've worked regularly with high quality architectural and property photography. From being the UK Advertising Manager for Strutt & Parker, to the global lead Senior Graphic Designer for DTZ, I've always had a great eye for a knock-out image.
